

# ADOPT A CAT

The **Cat Hospital** has a handful of delightful indoor cats looking for a home.

Scruffy  
Female, age 9

Scruffy's striking appearance begins with her stunning, iridescent sapphire eyes and ends with her dark chocolate tail. This gorgeous, longhaired ragdoll has coloration that is a mixture of cream and brown shades. In addition to her beauty, Scruffy is a great companion. She is mellow, friendly, calm, affectionate, and quiet. Although she'll do best as a single pet, with patience she can adapt to other pets and children.

Dimo  
Male, age 14

Dimo is a charming black and white longhaired, 16 lb. cat with expressive green eyes, and he is "personality plus". He is unusually sweet, affectionate, alert, and responsive. Although he has some difficulty walking due to the effects of an ear infection, that doesn't stop this trooper from getting around and giving you his friendly greetings. Dimo is special needs cat with emphasis on "special" since he's specially sweet and emotive. He'll be fine with other cats or children.

Jade  
Female, age 13

Jade is lovely all white, shorthaired cat with striking eyes: one is blue and the other is chartreuse. This regal lady is affectionate and likes attention, but she requires some initial cultivation and patience. She is easy to train with food. She'll do best in a single pet household. She is not deaf, and she requires thyroid medication.

Kitty A  
Male, age 3 1/2 months

This shorthaired black and white kitty is sweet and playful. He likes to be held, and he's adaptable.

Kitty B

Female, age 3 1/2 months

This sweet, all black haired kitty is also playful and likes to be held. She is just as endearing as her rambunctious brother, but more subdued.

To view these cats please call the **Cat Hospital** at 488-4161. This facility is located at 4115 Manzanita Avenue in Carmichael. The Cat Hospital will not euthanize any cat that has a chance of being adopted.
