

Protect Your Gas!

**Prevention Tips
from**

Rising Gas Prices Can Result in Increased Gas Theft / Siphoning from Vehicles

Taking these steps will help decrease your chances of becoming victimized:

Park in a Locked Garage if Possible

Consider purchasing a locking gas cap

Available anywhere they sell auto parts/supplies.

Park where your vehicle can be seen by others

Choose a well lit area, NOT remote or hidden such as behind a business.

Make sure doors and windows are closed and locked

Never leave anything of value in your vehicle.

If you see any suspicious activity around vehicles:

Call the Police at (480) 644-2211

Also remember, **NEVER Leave Children or Pets Unattended** in your vehicle or without the air conditioning on, even for a short time, as the heat rapidly rises in an enclosed area and can cause severe harm or death.
