Reading and GED Tutoring

Are you or an evacuee you know interested in becoming a better reader? Would you like to study for your GED?

If you would like to volunteer to help tutor others, we would love to have your help. We are organizing a program and want to begin in June.

This is a great opportunity to increase reading skills to have a better life and improve job opportunities. **Please call Rita at 303 282-1234 x 306 if you would be interested in having a tutor help you or a family member or friend or to volunteer.**

HAND-Hurricane Assistance Network of Denver

(A collaboration of Faith Based, Voluntary and Governmental Agencies and Organizations which have joined together to help in the long term recovery of evacuees.)

Please let other evacuees know about the Drop-in Center and Reading and GED tutoring.
