

PETITION

Huntington Gardens

We the residents of San Marino and Pasadena residing on or close to Allen Avenue between Del Mar and Orlando willingly sign this petition to inform the cities of San Marino and Pasadena as well as the Executive Board of the Huntington Library, of the unacceptable increase in traffic, both motor vehicle and truck, into the Allen Avenue entrance of the Gardens. The Huntington Gardens, while an invaluable community asset and resource, has placed an undue burden on the Allen Avenue residents with regard to pollution, noise, congestion and increased risk for motor vehicle related accidents. It is of particular concern that trucks (including tractors and semis), buses (both charter and school) and delivery vehicles regularly transit despite the street's designation as a car only thoroughfare. A rationale redistribution of traffic amongst the surrounding access routes to the Gardens is in order. The Oxford entrance is underutilized and should be accessible during the same hours of operation as the Allen gate. The residents respectfully request a satisfactory resolution of their stated concerns.

As the initiator of this petition, my name is Elise Latawiec. I can be contacted at 510 South Allen Avenue, Pasadena, CA 91106 (phone 626-440-9591).
