

January 25, 2007

**Mr. Tim Price
Rock of Southwest, Southwest Baptist Church
10393 W Alamo Pl
Littleton Co. 80127**

Dear Mr. Price;

We have received your letter of January 12, 2007 regarding your request to meet with the Homeowners Association Board to discuss additional changes you have made to your proposed ODP.

We have discussed your proposal and while we appreciate the invitation, we have decided to decline.

Since December 1, 2006 when we first learned of your plans to substantially increase the size and uses of the church we have responded to two iterations of your plan. The first was provided to the Planning Division and the second was handed out at the public meeting without first being provided to us or to the county. The one you discuss in your letter of the 12th will be the third.

Because the target seems to be changing frequently, we have decided to wait until you file your formal ODP with the county. At that time we will prepare a response.

We strongly believe that the church as it is presently constructed, along with the programs that are now offered are appropriately sized given the location of the church in our community.

We also believe that if you wish to develop a mega-church, you should do so at an appropriate site that can handle the impacts of such a church.

You have informed us that you are establishing “satellite” churches to take the overflow. Perhaps a better plan would be to have this church serve in that capacity and to build a new, larger one at a more suitable location.

Because we believe that any expansion of the church or its programs will create significant adverse impacts on our community, we must inform you that we will oppose any change to the existing ODP.

Sincerely,

**Naomi Ashcraft, President
Westridge Homeowners Association**

**cc: Jefferson County Planning Division
