

Planning Committee meeting October 17, 2007

Student Leadership

Welcome Week late night events

- Jazz night
- Ballroom
- Screen on the Green
- Greek Carnival

Used shuttles from events to neighborhoods

Action item: Student Leadership committee to follow up on transportation to see if something permanent can be set up

Students for a Safer Southside attended the events

BIG NEWS: Institutionalizing work of task force

John Cummins has met with several vice chancellors to work out details of a position for Off Campus Residents. This is in the beginning stages. They have to figure out where it should be situated in the university, if it should be a funded position and, if so, where the money will come from.

Health

Tang Center is promoting a lot of activities around drinking including

- Campaigns to advertise safe partying (Don't Get Plastered)
- Working with enforcement to provide training to those students that receive citations

Neighbors

Introduced Neighbors' Quality of Life Log. Very good reception from the Planning Committee (See sample entries below). Goal is to close gaps in cycle so that there is accountability for police/university actions. There are currently 95 entries for the period 4/29/07 through 9/28/07. 8 people have sent in entries. Would be good to expand to the 2500 and 2600 blocks.

note in up review
