

## **GUIDELINES FOR PREAPPROVED STORM DOORS**

Storm doors may be installed at front and rear house entrances, without prior approval, provided all requirements listed below are met.

Any storm door design that does not meet these requirements must be approved by AC HOA prior to installation.

### **AC PREAPPROVED STORM DOOR REQUIREMENTS**

#### **COLOR:**

Screen doors must match the existing house door frame color. Silver or aluminum finishes are NOT permitted.

#### **FULL VIEW:**

- This style is approximately 90% glass and 10% frame.
- This style may be used on any door, at any door way.
- Available in several colors likely to match trim color, eliminating the need to paint.
- All glass must be clear.
- Glass must be plain (undecorated) glass or have only simple, straight, etched lines. No designs, such as, but not limited to, reeds, herons, or flowers are approved.
- Glass will be rectangular, not oval or any other shape.
- Hinges will match storm door. Handle and door sweep will match storm door color or entrance door hardware color.

#### **\*NOTE\***

These guidelines supplement AC Declaration of Covenants & Restrictions Article IX.
