

Dental Providers Accepting Medical Assistance (Medicaid and RItE Care)

Those eligible for Medical Assistance born on or after May 1, 2000 receive dental services through the RItE Smiles program (using a separate RItE Smiles card). All other children and adults in RItE Care, RItE Share, and/or Medical Assistance can receive dental services with their Medical Assistance card (white anchor card). This list can be used to find a dental provider who accepts Medical Assistance.

Private Dentists / Dental Specialists

To find a private Dentist or Dental Specialist (Endodontist [root canals], Oral Surgeon [extractions/mouth surgery], Orthodontist [braces], Periodontist [gum disease], or Prosthodontist [dentures/replacement of missing teeth]) who accepts Medical Assistance:

1. If you are enrolled in RItE Care, RItE Share and/or Medical Assistance, call the RItE Care Info Line at **(401) 462-5300** or
2. Go to **www.dhs.ri.gov**
 - i. Click on "Provider Search" in the column on the left hand side, then
 - ii. Select "Dentist" under the "Type of Service" category, and then
 - c. Click on "Find Provider" to get a listing of dentists.
3. **If your child is enrolled in RItE Smiles**, call **1-866-375-3257** for help in finding a dentist.

NOTE: The list on the DHS website includes dentists who have accepted Medical Assistance in the past. Dentists on this list may not be accepting Medical Assistance when you call. Dentists also may place limits on which patients they treat. For example, dentists may only provide care to current patients, patients who live in the community in which the dental office is located, and/or patients of certain ages.

Community Health Centers with Dental Centers

The Community Health Centers listed below offer dental services. However, Community Health Centers may not be accepting new patients at the time that you call, may not provide all types of dental care, and/or may only provide dental care to their medical patients.
