

URGENT NEED FOR BLOOD DONORS

Our hospital needs approximately 12,000 units of blood each year to treat people in our community who require life-saving blood transfusions. But we cannot fulfill our community's needs without your help!

You can help by organizing a blood drive with New York Hospital Queens or donating blood at our hospital. Your pint of blood can save the lives of several patients who need transfusions for trauma surgery, kidney dialysis, anemia, burns, leukemia and other forms of cancer.

Your efforts may even help to save the life of a neighbor, friend or loved one.

Criteria for donating blood:

- Donors must be 16-75 years of age and weigh more than 110 lbs. 16-year-old donors must have parental consent and proof of age. 17-year-old donors must have proof of age.
- Please bring photo ID and provide Social Security or Passport number#

56-45 Main Street
Flushing, NY 11355
718-670-1231
800-282-6684 (Find a Physician)
nyhq.org

- Please eat within three hours prior to donating
