Get the Lowest Residential Gas Rate

Preferred Residential Rate

The Preferred Residential Rate is first and foremost to reward customers who use natural gas on a year-round basis. The Preferred Residential Rate is 10% lower than the General Residential Rate. To qualify for this rate a residential customer must:

1. Have at least one natural gas appliance that uses natural gas year-round (examples include clothes dryer, water heater, stove, grill, or gas light).
2. Use a minimum consumption of 9 therms per billing period. If the consumption falls below 9 therms, the customer will be billed for the minimum consumption of 9 therms that month. If a customer has zero consumption during any billing cycle the customer will be taken off of the Preferred Residential Rate.

General Residential Rate

Available to all residential customers for all uses.

For those customers who do not qualify for the Preferred Residential Rate, you can save 10% on your gas bill by installing a year-round natural gas appliance.

Please call Customer Service at 1.866.578.4427 if you have any questions about our rates.
