

PHOTOS OF OUR FIELD DAY JUNE 24, 2006 at Horsethief Canyon Park

Information table near entrance.

Information Table – Awning blew over in a wind gust later in the day.

Sign points to road that leads uphill to Field Day site

RV's are set up

Mark's 36 foot mast supports a 40 meter inverted V dipole antenna

1:1 Balun connects the dipoles

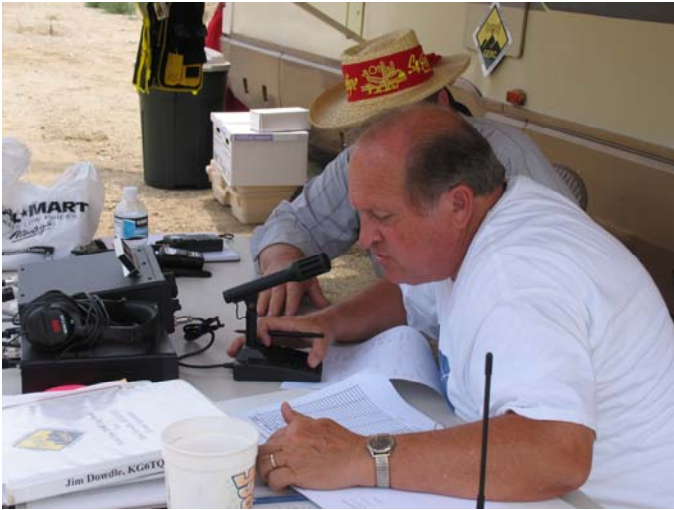

Rob's 20 meter dipole antenna really brought in the stations!

2 meter yagi antenna

Richard, KG6TRD and Jim KG6TQT get on the air on 40 meters

Did you hear that?

Local DX on 2 meter SSB was hot! Roy, KG6RGD did a great job logging over 30 stations!

The 20 meter band was hopping! We logged 20 states! Rob KE6YGF is very happy that his rotatable dipole antenna worked very well.

Old Glory and the ARRL flags.

It was soooo HOT!

Chef Frank at the Grill

Lunch is served!

WOW!

Salad anyone?
