From: Rudy Davidson, President

Re: Section Leader Resource Manual

Since the Shawnee Neighborhood Association was incorporated April 24, 2008 the role of the 12 Section leaders representing six sections of the Shawnee neighborhood is vital to the success of the association and progress of the neighborhood.

The By Laws are very specific of the duties of Section Leaders as defined in the job description in Article IX, Section 1 A. Section Representatives" will be responsible for representation of residents in their section as described in Article II; this includes but is not limited to gathering input and sharing information with the board of directors."

The Section Leader Resource Manual is a tool for your use to assist that effort. The manual includes section maps, by laws and articles of incorporation, current newsletter, listing of neighborhood block watch organizations, membership information and applications and the Weed and Seed resource directory.

The Board of Directors will support and encourage your efforts as we continue on the path to improve the quality of life for all residents in the Shawnee neighborhood.
