

A Friendly Reminder to Have Your Septic Tank Pumped

Tri-County Health Department's Individual Sewage Disposal System regulation requires that your septic tank be pumped and inspected every four years. If you have not had your septic tank pumped and inspected within the last four years, we strongly encourage you to contact one of the "Licensed Cleaners" listed on our website to arrange for this important system maintenance.

Website Page: www.tchd.org/septic.htm

List of Licensed Cleaners: www.tchd.org/pdfs/licensed_cleaners.pdf

Performing this regular system maintenance may lessen the chances of expensive repair or replacement and extend septic system life. Most importantly, regular system maintenance can prevent disease transmission from exposure to germs in sewage if your system fails.
