

Disgusting Trash Found On The Curb Of Homeowner's House 8-29-10

I awoke last Sunday to an old disgusting set of mattresses parked in front of my house after a party the previous night at a house on Bradford. I was told the Police had arrived after midnight to stop a fight and stop people from doing doughnuts around the mattresses on our neighborhood streets. The next morning there were many crushed beer cans and crushed cups littering the street. Thanks to the courteous homeowners that called the Police and prevented the situation from becoming worse. Neighborhood Watch is working!
