ITU 49 CQ 26 OK09jc

Greg, representing GERC-AI, for the very FIRST ever GERC Net for checks in. It's been a long frustrating wait with power outages, router issues, computer issues, and an internet connection that sometimes seems more of an interNOT than an internet. But I guess that's all part and parcel for life in rural Thailand.

Greetings from the future!

Not that this absolutely proves I was talking with you from Thailand, but honest-Lee, I am! See, Thailand is even on the globe!! Wish I could join you folks at Flappy Jacks, but it was about 10:30 am on Wednesday in Thailand when I spoke with you folks on the GERC Net, and then it was already AFTER the scheduled time for breakfast hahahaha!

Successful participation in the GERC Net!

Thanks to Mark and the GERC hams for another opportunity for me to connect with the good guys!

Thanks!
