

New Porch Rebuilds Decay as Painting is Not an Option !!!!!

The Funny part of living at Highline Meadows is that each of us pay hundreds of dollars each month and don't have any say in any matters.

We live without light in some areas for months as the porches that were rebuilt as many as 6 months ago still are not painted and are decaying.

All this time your monies are being drained off in a budget filled with deception and greed. No one can answer your questions because you don't have any rights as payers of the Highline Meadows Dictatorship Party.

As we go on the roofs are not being talked about, the safety of this community is at jeopardy as we strive to get answers on structural integrity and the overall safety of this community.

As time.... each year.... time goes on ...we have lost our monies and control of our community we must regain control and fix the future.
