

The problems we are facing are akin to the problems the world was facing to pre WWII standards. We are dealing with peoples, be them our Board of Directors (Dictators) or the TMMC Management company (corrupt, money stealing thugs), as the people faced with the NAZI's of Germany. There is little difference between these two groups. The Hitler of yesterday, is very much alive in our Directors and management company. They dictate us, the people, in rules, languageisms, to suit their own selfish needs and objectives. Their bible is not of King James, but, rather, Mein Kemp. (Only adjusted in todays society here at Highline Meadows)

Be it Sharon, or Denise, we are dealing with very ignorant people who do not care for anyone other than themselves. We are dealing with people who will sit back , lie and justify their actions,as we, the owners of condos or town homes go bankrupt, or foreclose on our properties.

How these people can justify their actions amazes me. How can Denise even walk on the Highline Meadows property knowing that most people around her who live here really do hate her and hold no good feelings towards her. How our directors of this community can even face their neighbors amazes me. Sharon is no different than Alan, or the rest of this messed up group.

Until we, the owners can really have a say, via our own spokespeople, we will just have to bear the burdens. We are not living in a democratic society here at Highline Meadows, but, rather, a state of dictatorship, corruption, and lies, presented to us from a board of directors whom most do not want or feel representation, and a corrupt management company who is probably, seemingly, taking our honest and hard earned monies for themselves.

This whole association stinks really badly and until they are gone, we, the community, as NAZI Germany and the world had to live, will be the only ones to suffer. Study history and you will see the resemblances. Be it with a Hitler, or any other dictator. Dont think for a minute that Sharon, Denise or any other board members or management people are on our side. They are NOT.

Joe

Homeowner (unfortunately)

Highline Meadows
