

Pool Cleaner Stolen From Backyard Pool 7-25-11

A Rembrandt Neighbor woke up to find his pool cleaner had been stolen right out of his backyard pool. He immediately checked Craig's List, found it and arranged to meet the culprit. When he met the guy at a gas station he identified his pool cleaner, told the guy he was reclaiming it, and got pictures of the guy, his car, and his license plate; and told him if he ever is seen in the neighborhood again he would be arrested. After relating his story to a neighbor who runs a pool service in the area he was informed that several other pool cleaners have been stolen in our area. The other victims also had a backyard that was adjacent to a street (with a wall divider). Please keep an eye out for any suspicious behavior in our neighborhood and if you have a back yard pool be especially vigilant and report any crimes to the Police for tracking and follow-up. Emergency – 911 and Non-Emergency 951-776-1099.
