HERE IS WHAT THE EGCA BOARD IS DOING:

EGCA is in support of ERC (Edgemoor Revitalization Cooperative, Inc.) and their success with the Edgemoor Resource House at 41 S. Cannon Drive. EGCA intends to convey title to the open space (known to all as "Little South Cannon") to ERC so that the resource house can be completed and the outside area can be used for events. The cost of this title transfer will be primarily born by ERC through a grant.

EGCA also intends to investigate and acquire title to all other open spaces in Edgemoor that EGCA does not currently own. Some open spaces are still owned by Wilmington Construction. Some open spaces are owned by the prior Edge Moor Gardens Civic Association which was established in 1943. The costs to complete this process are unknown at this time. EGCA will research whether any grants may be available for such a project. It is anticipated that donations and contributions, as well as attorney pro bono work, will be necessary to make this project work.

EGCA board members attempted to acquire a licensed and insured snow removal contractor with equipment small enough to access our narrow streets. We had some leads, but no one was able to take the job. We are willing to work on this issue during the summer months so as to be prepared for next winter. Leads on any possible contractors who may be interested would be appreciated.

EGCA also handles the safety and security issues in Edgemoor, as well as any property or code enforcement issues.

EGCA strives to be a strong and viable organization. To be this, more board members are needed. If you would like to join EGCA in the projects shown above and are willing to assist in some way, please let us know. You can help the board by donating time and your skills even if you do not want to be on the EGCA board. The Bi-Laws of EGCA show that only owner residents are able to be members of EGCA board.

Everyone can volunteer and make a difference. You have something to offer!
