Here are a few articles about crimes in our area; let's keep watchin' and stay vigilant. . .

Police warn of burglars' ploy

A string of house break-ins is prompting Murrieta police to warn of burglars who switch off electrical breakers to determine whether anyone is home.

"Once the home is determined to be unoccupied, the suspects force entry," police said in a written statement. Anyone with information about the crimes may contact the police at 951-696-3615.

An 18-year-old Winchester man was arrested at a hospital early Sunday, Nov. 11, after authorities say he beat and robbed a teen in French Valley.

Joseph Scott was booked into the Southwest Detention Center in French Valley on suspicion of robbery and

battery, a Riverside County Sheriff's Department news release said.

About 9:30 p.m. Saturday, a 17-year-old boy was walking on Benton Road east of Winchester Road when he was approached by a group of people. A man later identified as Scott demanded that the teen give him all of his property, sheriff's officials said.

When the teen refused, Scott struck him, knocking him to the ground, the release said. The two got into a fight and several items were taken from the teen.

The teen ran home and family members took him to Rancho Springs Medical Center in Murrieta for treatment of injuries he received during the fight.

Scott showed up in the

same emergency room and was recognized as the attacker, sheriff's officials said. He tried to run away but was detained by the teen's family, the release said.

Authorities ask that anyone with information call the sheriff's Southwest Station at 951-696-3000.
