

Kerry,

If this budget is fixed and reissued to correctly show the monies, then I have done my job as a good citizen of this community. To stand on the side line and allow this junk to be passed as the real thing is like throwing my money down the toilet.

I Appreciate all your Emails and comments. I am working to get a solution to this problem with our information. I have every right to question this budget and request answers to my questions. Even if I have to over and over again. I am starting to get answers. One day this stuff might be fixed.

The board needs to seriously review what they are sending us.

You are right, I will never give up till its right! I will always analyze the budget since no one else does, and I will always stand- up for Truth, Honesty and American Way in Our HOA.

Spelt grain requires a second process to remove the husk, just like these Board of Directors, a second review of the budget can remove the errors and get down to the source of truth.

Regards,
