

McCormick Park Lighting Meeting Results- July 25, 2013

McCormick Park night lighting-

A meeting was held on Thursday, Thursday, July 25th, 2013 in the multipurpose room of the Lighthouse YMCA.

Neighborhood Street Representatives, concerned neighbors, along with Representatives from Parks and Rec and Ward 3 City Council were on hand to listen to discussion regarding an amendment to the hours of operation for park lighting, which are currently 11:00pm to dawn.

After discussion, a vote was taken to determine whether lighting hours should be amended so that lights remained on from dusk to dawn. The vote was 11 in favor of leaving light hours as they currently are, and 5 in favor of keeping lights on all night.

It was decided to review at both 6 months and 12 months from this vote to evaluate whether any amendment to the hours is warranted, specifically if crime or vandalism increases. Data will be collected by Parks and Rec, and from Tucson Police Department records for this evaluation.

Thank you to all who attended and provided your input into this matter. It is through the concern of neighbors and willingness to become involved as concerned citizens that Vista del Monte remains a quality, family friendly neighborhood.
