

Welcome to E-Meetings!

With online board meetings, residents can call/log in safely from home and Board Members can stay on target with goals and deadlines no matter what the weather.

Weather, distance, meeting location closures and other factors will not affect electronic meetings.

All you have to do is log into your computer, dial into the meeting with password/ meeting number and you're in. The website ID and password/ meeting number will be provided a week prior to the meeting via this website.

We're hoping that this will be a great tool for getting more residents involved in the community.
