## From The Desk Of Your Area 10/11 PAR Officer

Hello Everyone. My name is Officer Fermin Moreno and I am your PAR ([Police Area Representative](#)) Officer for Area 10/11. I am looking forward to the opportunity we, as a community, have to work together toward the goal of improving the quality of life within our community. My desk/office telephone number is 303-739-1828 and my email address is [fmoreno@auroragov.org](mailto:fmoreno@auroragov.org). My work schedule will be Tuesday through Friday from 7 a.m. to 5 p.m. Feel free to contact me by phone or email with any Community Policing or PAR related issues. I prefer emails but a phone call will also work. I will be providing this newsletter to you on a monthly basis. It will include the basic crime statistics for area 10/11 from the previous month, crime prevention tips, and meeting notices.

## Helpful Hyperlinks

In this information age, we are doing our best to provide you with timely and accurate information about news in Aurora. Did you know you can read news releases and important information from the police department at the same time that the local news stations get it from us? Like us on Facebook.com and follow us on Twitter. We send out all our important stories and information through these social media sights.

We understand that your time is critical. Save time by using this link to submit an online police report. You can file some car accident reports, theft reports, lost or missing property reports and even damage to your car or home. Simply follow this link and follow the directions.

## Denver Century Ride

On June 18<sup>th</sup>, 2016 Coldwell Banker and Stapleton Denver will be hosting the Denver Century Ride. This is a 100 mile bike race in which the course will proceed through the City of Aurora.

The Aurora Police Department will be conducting Traffic Control for the portion of the route in the City of Aurora. We want to make notifications to the Aurora Businesses and of course the citizens to bring awareness to this event because it will most likely affect traffic in both residential neighborhoods and businesses.

We will have off duty officers along with our motorcycle unit working this event to try and alleviate the traffic as best as possible. It appears as if the route will come north entering our city through Heather Gardens and go north on S Xanadu St. The route will then go east on E Jewell Ave and continue north on Potomac St Past Aurora South Hospital. It will continue north to E 2<sup>nd</sup> Ave and then go west to Peoria St and go north from there until it is out of our city. A detailed map of the route can be found at [www.denvercenturyride.com](http://www.denvercenturyride.com). We will have sign boards letting citizens know when this is happening and I will also be passing out flyers along the route to make people aware of what is going on! Let me know if you have any further questions about the event!

## Difference between 911 and Non-Emergency number.

I get asked this question all the time. What is the difference between 911 and the Non Emergency number (303) 627-3100? This is a really good question. Whether you dial 911 or the Non Emergency number, it goes to our dispatch center. They are both good to call but only use 911 during a real emergency. If you don't have the non emergency number programmed in your phone and need to call Police/Fire/EMS, you can always dial 911 and we will respond. More details if you call or email me!

## Crime Information

If you would like a more comprehensive list of events that surround your neighborhood you can always go to [Raids Online](#) and see what is going on. [Raids Online](#) has the ability to filter the following crimes: Homicide, Burglary, Robbery, Theft, Sexual Offenses, Assaults, Property Crimes, Alarms, Arson, Death, Family Offense, Kidnapping, Missing Person, Weapons Offense, Quality of Life, Drugs, Liquor, Traffic, Fire, Proactive/Community Policing, and Vehicle/Pedestrian Stops. Simply pull up the website, select the data you are interested in, along with your address, and it will pull up all the crime data for the time frame you selected. If there is a particular crime that is of concern to you please contact your [PAR officer](#) and they will determine if they can release anything about that crime.

## Neighborhood Info.

### Residential Security Surveys

With the warm weather coming in you might want to see if there is anything we (The Police) can do to try and give you tips to keep your house as safe as possible during the nice summer season! I have done numerous surveys and some people thought they were secured. They were, but I also gave them pointers to make their homes that much safer. It doesn't cost you a dime and it will give you a chance to meet me. It only takes 15 minutes, (Although they have lasted over an hour from just conversations with people). Please call me or email me to get you set up. I promise you will not regret it! Stay Safe!

## Crime Safety Tips Camping Season is here!

Now you may be asking why I am putting crime safety tips about camping. This is a time to go out with family, friends, and associates and get away from everyone. This is a time to worry about your fishing line rather than answering phone calls at work. I get it.

What people don't realize is that you are away from your home during this time. I have taken many burglary reports when people have gone out of town on vacation and much worse, from a camping trip.

Some simple tips:

- When packing items for the trip, try to do it while not exposing it to the entire city. What I mean by this is as people drive by they are sure you're going camping from you loading your items up. If a burglar drives by he will know you might be gone for some time.
- Secure your home by locking all windows and doors before you leave. There is nothing worse than taking a burglary report and an entry was made through an open window or door. This could have been prevented.
- Let your close friends or close neighbors know you will be gone and to keep an eye on your place. Let them know that nobody is supposed to be there and to report anything directly to police if someone is snooping around.
- If gone more than a couple of days, have a close relative, friend, or neighbor check on your place.
- Lock up your valuables in a safe or take them with you! This includes keys to your cars left at home. Don't let them steal your car too!

By taking these steps you are more prepared to make your home safer which means you get to enjoy the great outdoors! This is my favorite time of the year!!

### Crime Stats Area 10/11 – May 2016

Larceny from motor Vehicle  
Area 10- 8, Area 11- 9  
Residential Burglaries  
Area 10- 0, Area 11- 0  
Commercial Burglaries  
Area 10- 1, Area 11- 2  
Robbery  
Area 10- 1 , Area 11- 2  
Motor Vehicle Thefts  
Area 10- 5, Area 11- 8

MVT's are still up! Let's do what we can to make these numbers go down. Also Thefts from within Motor Vehicles are high too. Keep your valuables out of sight to avoid being a victim. If they don't see something they want, they will not break in. Good news is there were absolutely 0 residential burglaries in both Area 10 and 11. I had to double check because I could not believe my eyes. Good job. Together we will make this city safer! -Fermin
