- Garage Door Policy

- HSS is not authorized to enter onto CCHN properties and try to close a member's garage door by touching enter on the keypad.

- Call HSS if you see a neighbor's garage door open.

- CCHN members may call HSS to give them your cell number if you would like to be called on your cell if they see your garage door open. Unless you supply your cell number, HSS will not have it because cell numbers are not currently a field in the CCHN directory. This will change when our database is revamped in 2018.
