

Update on Chaddwyck's Streets

Greetings, neighbors. We realize many of you are concerned about the condition of our streets. We are aware of the conditions and want you to know we are working with our vendor to correct the issues.

The roads were plowed Thursday morning and our vendor was to return last night to plow again and salt. Unfortunately, their spreader broke. The wind and temperatures have made it more difficult to keep the roads clear.

The vendor will be plowing tonight and salting tomorrow morning. Our streets should be in much better condition tomorrow.
