

NORTH KANSAS CITY SCHOOLS

MORE THAN 21,000 REASONS

2020 BOND PROGRAM

North Kansas City Schools is now home to more than 21,000 students who engage in innovative educational experiences each and every day. To address growth and equity issues, NKC Schools is asking voters to consider a **\$155 Million Zero Tax Increase Bond Issue** for the June 2, 2020 ballot.

EXPANSION

- ▶ NKC Schools is now the **third largest school district** in the state and the largest in Kansas City, Missouri.
- ▶ Our district has grown by nearly 800 students in the past two years.
- ▶ We are **growing districtwide**, throughout both the northern and southern areas.

EQUITY

- ▶ The majority of our school facilities are **more than 60 years old**. Many have antiquated water and sewage pipes, old wiring and are not ADA-compliant.
- ▶ While the district has maintained each facility well, they are becoming obsolete as dynamic spaces for today's learners.
- ▶ Oak Park and Winnetonka high schools do not have **home stadiums**. Current facilities do not include restrooms, concessions nor permanent seating for guests. Parity and pride are our goals for each high school.

EXCELLENCE

- ▶ Our community's youngest learners need a place for **Pre-K education** to set them on the right educational path for success.
- ▶ The district's **Early Childhood Special Education** program is currently housed in a 70+ year old facility in Pleasant Valley. Growing enrollment has resulted in additional classrooms at elementary buildings across the district, adding to crowding at these schools. A new site that would become a centralized hub for Pre-K learning districtwide would ensure future success.
