

The College Point Civic & Taxpayers Association

JOIN TODAY!

Support Our Mission... by getting Involved, you will improve the community you live in!

The College Point Civic & Taxpayers Association is an organization of people who live and/or work in the College Point community. We come together for a united purpose: to improve the quality of life in our neighborhood. The monthly meeting is an open forum to discuss our community and how to improve it. Issues of crime, zoning, building construction, transportation, graffiti, and parks are some of the topics discussed.

What can the College Point Civic & Taxpayers Association do for you?

Many voices become one powerful voice through the Civic Association. The Civic Association is the ideal place to learn about local government policy and procedure. It is a powerful tool that can make your community concerns heard.

At our monthly meetings we have speakers from City agencies including the 109th Pct, elected officials, advocates and other community groups. This gives our members the ability to ask questions and inform them of their concerns. The many committees work diligently to resolve issues raised at monthly meetings. The Civic Association acts on your behalf as a collective voice.
