

## PANORAMA ESTATES ASSOCIATION BUFFELGRASS CONTROL MASTER PLAN

1. Every Panorama Estates property owner is expected to keep their property free of buffelgrass, including undeveloped lots. If an owner is unable to do this, then they may request referral assistance from Panorama Estates Association.
2. Each January, Panorama Estates Association will coordinate removal of buffelgrass from Panorama Estates. Under supervision, workers and volunteers will clear areas of buffelgrass infestation. PEA will coordinate roll-offs placement to allow for the efficient disposal of the bagged buffelgrass.
3. Throughout the remainder of the year, PEA will arrange to treat new buffelgrass growth with glyphosate as needed.
4. Lots with large infestations of buffelgrass will be reported to City of Tucson Code Enforcement Office.
