The \$2418 is a total consisting of Ron's bid on the four cement replacements of \$1718 plus two brick fronts which will be approximately $2 \times 360 = \$720$. Whoops! Were you waiting for me to correct myself? the total figure should be \$2438 instead of \$2418. I didn't expect you to approve the cement work but that we would take it up at the meeting. Sorry about the total and about misleading you.

Subject: RE: Info--

Hello,

Since the amount is above \$250.00, I cannot unilaterally approve it without consent from the Board.

Kathy R, I'd like to request a breakdown of the long math in coming up with the \$2418 figure. I think I see how you arrived at that number, but would simply like to know for certain before we vote. Thank you.

Best, Davon Ebert
