I see this morning that they didn't even mow up front by the street side of the 8 plex garages or behind them. That's quite a section totally missed. not much was trimmed if anything.

Subject: Fwd: Lawn Care Photos

Greetings to All:

I spoke with Susy from C.V. Lawn Care.

We looked at some of the photo together and I asked her to send a response to the comments/questions that have been raised.

I hope everyone will remember that Blade Runners did the properties for quite a few years. This is C.V. Lawn Care's first season and we need to work with them until they learn the property and what the HOA is expecting.

Any questions or concerns let me know!! :) :)
