If I have offended anyone with my observations in my recent letter to the Board, I sincerely apologize. I am wrong concerning the third sentence of the last paragraph; I know better and should have been more thoughtful. I am duly concerned about finances and have personally spent many hours working the numbers. I do not wish to undermine anything.

For the record I am not opposed to the special assessment and did not bring that up in my recent letter. It will be great to have money to pay off long overdue bills! I'm sure Laura will agree as she writes the checks. But nowhere in our discussion did anyone respond to my bringing up the monthly deficit nor the lack of reserve funds other than Kathy B. who brought up several items on the expenses that would be less this year. The monthly deficit and the lack of a decent reserve fund are a concern to me and is what I really stressed in my letter to the Board. It was frightening to have roofs to fix and no money in the reserve fund to pay the deductible!

Again, I offer my apology and sincerely wish for a unified and supportive Board. May we have a great year ahead!

Sincerely,

Kathy R, Treasurer
