I have talked to several people down here who have condos back up north. They changed their by-laws to NOT allow rentals because they had such issues. In one case it took almost 20 years to get rid of all the rentals because current rentals were grandfathered in until their renter moved out. then they had to either live there themselves or sell their unit. I think it would be good to visit this issue.

Subject: Meeting

Nancy and I are meeting in AM to try to organize agenda and write a letter concerning snow problems. Nothing will be final just trying to save some time at our board meeting as there are many issues for this up coming meeting.

Anyone interested in this pre meeting let me know. Cindy
