

## **Your Board of Directors at Highline Meadows Care About Beautification By Selective Enforcement-**

**“There will be No Beautification in this  
Community”**

**What if someone told a you a story about a condo complex that never picked up the trash lying around. One that never paints anything or makes things look better or cares about the grounds or common areas.**

**What if a group of concerned citizens got together to make things nicer by picking up the trash, painting there garages, sweep the streets, pulling the weeds, putting nice pictures on the walls in the Condos, decorating with flowers. Wouldn't you think this place would look better?**

**Now what some of the improvements were removed by Direction of the Board of directors by selective enforcement. What if the flowers were being removed on a weekly basis and the pictures were being taken and all the flower decorations**

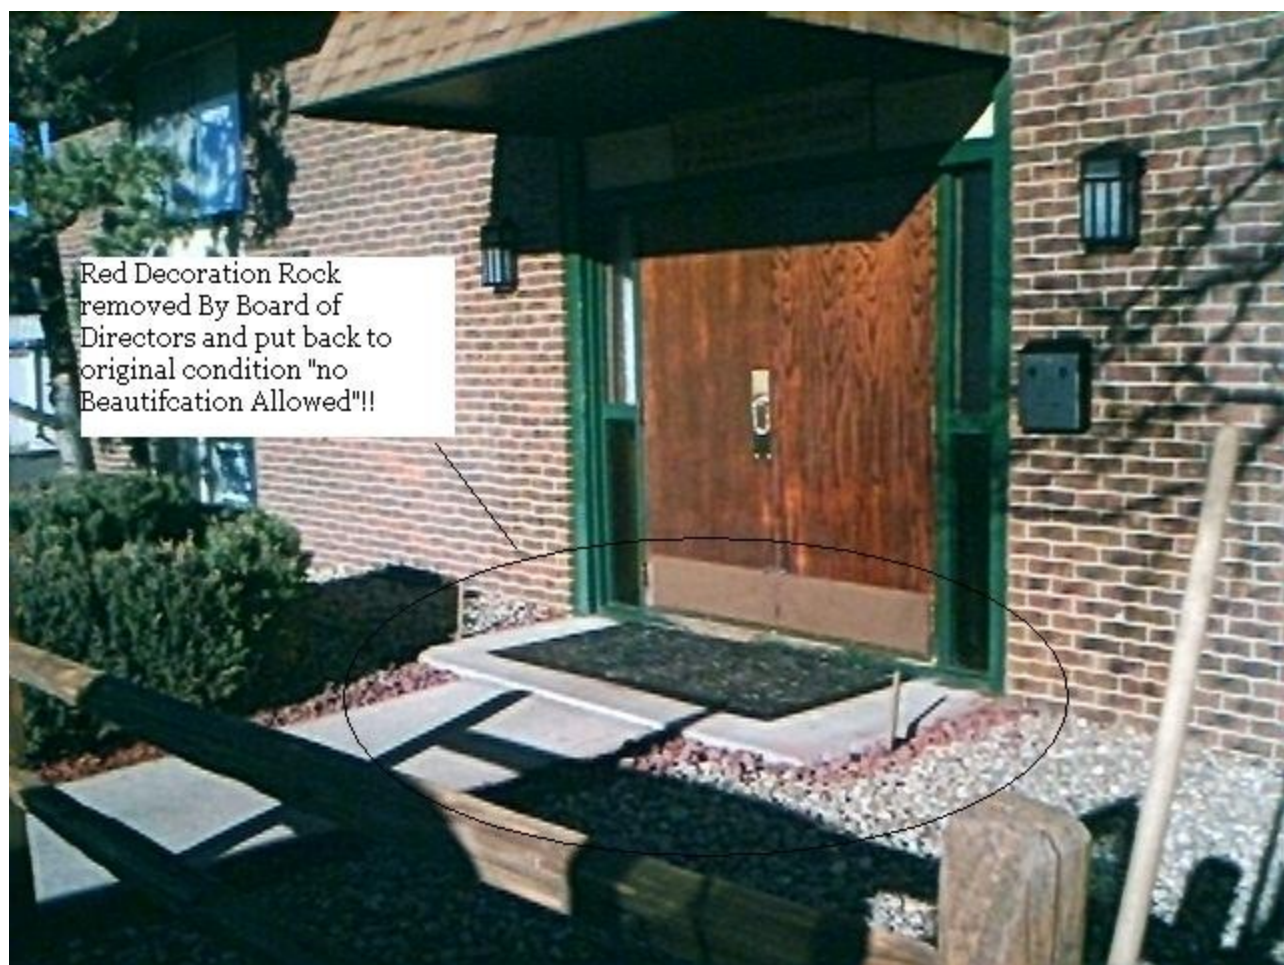

**were being taken.?**

**What if they went to the point of removing some red rocks and red bark decorations which also looked very nice and returned it to it's original decayed state?**

**Why are they so concerned with building 130 trying to spruce things up?**

***Selective Enforcement!***

**Its your complex at what point does this place start to look better? What if all the Board of Directors were worried about was our pictures and flower pots? Would you be concerned????**
