Time: 6:45 PM

Program

Sex Offenders in the Community:

What you should know!

Speaker: GPD Officer Ambrogio

Officer Ambrogio is an expert in this area. His presentations are in depth and compelling. As summer is upon us, this is an at risk time for many children. We can make a difference by knowing the law and knowing what to do.

As a neighbor, I have found that the best protection is information and staying connected. This is a rare opportunity to hear from the outstanding officer that has given many years to caring about our children. Fear is often times our worst enemy but information and a plan can resolve many of the pitfalls faced by potential victims. This is a subject close to my heart. All of us can be the safety net or a victim. I would remind us of the saying 'If it is to be, it is up to me'. Mark your calendars for an excellent program.

The other agenda items will include a discussion of the crime in our own area and a survey of the future direction of the association.

Spring is the time for fresh starts, plantings, pruning and growth. May everyone enjoy the season.
