

Why Are you Paying So Much Money?

Leaking Roofs 2008-YOU CAN

Jan 8, 2008

Its just astounding that TMMC would let these Roofs get so out of shape so soon after 8 Years.

We as a Community have seen enough wasted Money from these people with little repairs and Beautification.

The fact that we are still dealing with this issue brings up..... Why we have not thought that the Current Board and the Management company TMMC have not been performing there functions in this Community?

Each year our dues go up \$\$\$\$\$\$\$\$\$\$ and they waste our money on things that don't help our bottom line.

*When Property Values dive \$\$\$\$\$\$\$\$ and the place starts to look untidy that's when the **People of this community need to come together to fix the situation.***

We can do it! ...We can fix it. Do you care about this place?

We the people of this community will come together and make Change.

Change will Happen! 2008
