

# **We need another Board of Directors**

**We need another Board of Directors**

**Highline Meadows Community**

**We should question the board since the emergency assessment was not introduced to us in the proper manner.**

**Those in the community that attended the Board of Directors meeting were not told of the Emergency Assessment.**

**Based on the current spending habits of the board, as well as, Inconsistent Budget numbers that don't make sense we ask that the community decide if this Board is Capable of handling our Future at High line Meadows.**

**What makes this board think they can raise our dues year after year and then land us up in this situation?**

**We need another Board of Directors by the Votes of this community!**

**We also need to Audit TMMC for proper use of our money!**

**We need to know if we are being given a reasonable deal!**
