EnergySolutions Announces \$19,000,000 Remedial Stewardship Contract

SALT LAKE CITY, UT--(eMediaWorld - October 7, 2008) - EnergySolutions, Inc. (NYSE: ES) announced today its major role in the clean up of the Asarco Federated Metal Superfund Site in Houston, Texas. EnergySolutions has responsibility for soil remediation at the 20-year old site pursuant to a \$19,000,000 contract with Environmental Liability Transfer, Inc. which acquired the site from the Asarco bankruptcy estate.

"It has been very rewarding to work closely with the State of Texas in formulating a comprehensive plan and assembling a team to remediate this site," said Steve Creamer, CEO and Chairman of EnergySolutions. "Because of our unique engineering and remediation expertise, we are able to expedite the safe cleanup of a site that has presented a significant environmental challenge to the citizens of Texas."

EnergySolutions' remediation activities under its Master Services Agreement with Environmental Liability Transfers, LLC, started this past week.

EnergySolutions offers customers a full range of integrated services and solutions, including nuclear operations, characterization, decommissioning, decontamination, site closure, transportation, nuclear materials management, processing, recycling, and disposition of nuclear waste, and research and engineering services across the nuclear fuel cycle.
