

GERC hams and friends enjoyed Radio Direction Finding At Gladstone Park on October 5, 2005

38 hams came from distances as far away as San Diego, Riverside, Santa Barbara and points in between. Our hats are off to Roy, KG6RGD and Frank KG6TQV for their great barbeque expertise. They kept the grill going as the finishers arrived back from the course. Joe Moell, K0OV and his wife April WA6OPS taught the beginners RDF techniques and sent them on their way to locate five hidden transmitters.

The beginners course best time was placed by Bill Jacobsen N6PDG and his sons Jordan and Justin. Their time

to find all 5 hidden transmitter was 50 minutes and 59 seconds. Second was Rob Foth, KE6YGf and his family at just 1 hour and 30 seconds

On the advanced course Scott Barth KA6UDZ, an international medal winning ARDFer located all five transmitter on South Hills in 1 hour and 36 minutes. Scott Moore placed second with 2 hours and 58 minutes to locate all five.
