

TACTICAL EQUIPMENT FOR EMERGENCY RADIO OPERATORS

Updated 4/12/06

The items shown on these pages are recommended for Glendora Emergency Response Communications operators in preparation of their emergency equipment. Refer to the article "What's in Your Go-Kit" for details about the items that should be contained in them. Contact KF6DSA at realweather@gmail.com for details on how GERC members can purchase these basic items at discounted prices.

ITEM #1

Red First Aid Backpack with detachable fanny pack. (yellow detachable bag is not included)

Made of rugged military M.O.L.L.E. pack cloth and features an easy adjust suspension system with a unique removable lower bag that makes into a fanny pack for attending to minor medical emergencies or for storage of trauma or first response gear. Divided main compartment has two-way covered nylon self-repairing zipper. 10" x 10" x 4" attached pouch with cord-lock closure, compression straps, side M.O.L.L.E. attachment straps and metal drain hole. Bedroll straps, I.D. window, grab handle and lots of attachment points make this a useful rescue tool. Hold all your emergency medical gear in a handy, ready to go unit. Main pack measures 16" x 12" x 4½". Fanny pack measures 15" x 6" x 4". Weighs 2.70 lbs.

ITEM #2

First Aid Medical Kit.

A compact medical kit packed in a Red, water repellent nylon bag with hook-n-loop flap cover and pliable belt attachment with two stainless steel "Tenax" quick release dot snaps for rapid removal. Contains gauze roll, burn bandage, field bandages, triangle sling bandage, absorbent dressing and a Swedish

instruction booklet. Kits and contents are Brand New Never Issued. Measure 7½" x 7½" x 3½". Weighs.93 lbs.

ITEM #3

Medical Bag

Designed to carry a wide variety of medical and first aid items with three fold out compartments with zippered closure. Folds up tight and compact secured in place by military quick-release buckle. Made of waterproof-coated ballistic material with reinforced stitching. Features include: top carry handle, detachable shoulder strap and a M.O.L.L.E. strap system on the back so you can attach it to your vest as a pack, or just hang it from your belt as a fanny pack. Measures 11"W x 12"T x 4"D. Superior quality with multi-purpose use

ITEM #4

Small Gear Bag.

Main compartment is perfect for your HT and other small items. Store extra batteries in the separate zippered side compartments. Features include: top carry handle, detachable shoulder strap and a M.O.L.L.E. strap system on the back so you can attach it to your vest as a pack, or just hang it from your belt as a fanny pack. Measures approx. 10"W x 8"T x 4"D. Superior quality with multi-purpose use.

ITEM #5

Medium sized OD backpack. This is a popular emergency Go-Kit preparedness item for GERC operators, because it has numerous points of attachment for gear bags, water bottles and radio equipment. Constructed of very rugged material with two zippered front compartments. Padded adjustable shoulder strap system and hip belt. Approx. 14"W x 28"T x 8"D.

ITEM #6

front view

back view

Entry Vest. This vest has 11 pockets, suitable for radio and emergency supplies with a hydration back pack. Removable water bladder is included. Fully adjustable to XXL. Perfect for SAR activities. Colors available: swat black, OD, and woodland camo.

ITEM #7

Husky Rechargeable Worklight .

12V DC rechargeable worklight is corded and cordless. It is a portable utility worklight with high candle power quartz halogen bulb. Clamp on or hanging hook for versatile applications. It also functions as 12 volt DC portable power supply.

- Rechargeable and 12 volt quartz halogen and worklight
- 12 volt DC portable power supply
- Built in AC & DC charging adaptor.
- Built in area light.

ITEM #8

GERC Radio Operator's Safety Vest

This vest is perfect for public events where high visibility is essential to radio communications. Eight pockets, fully adjustable, one size fits all.
